What is Tucker University?

Tucker University is a series of classes; 3 or 4 hours in length. Each class introduces the quilter to a Deb Tucker Studio 180 Design tool and all of the uses of that tool.

Why take a Tucker University class?

Quilters will learn how to make fundamental quilt units with high precision and low stress.

- These are strictly technique classes.
- These are hands-on learning classes. You will be sewing in class.
- No obligation to make a specific quilt top.
- You can use your stash fabric because it is all practice—no extra expenses.

What are the Course Descriptions?

Enrollment Note: Students may elect to enroll in all three current offerings or choose specific classes. One class is not dependent upon another, at this time.

Course: 101 Tucker Trimmer Sunday January 8, 2023 1 to 5 pm

The Tucker Trimmer will become your “go to” tool because you can make four different units with just this one tool. You will learn to make perfect half square triangles, hour glass units, combination units, and Shaded Four Patch units. This class will move along quickly so that we can maximize your learning time.

Course: 201 V-Block Sunday February 12, 2023 1 to 5:00pm

If you are seeing stars in your future then you have just found your new best friend, the V Block[®]. Making stars is not the only thing the V Block[®] can do to improve your piecing techniques. Once you learn how to use the V Block[®], you will not go back to those plastic templates you have been tracing and slicing. Or connect a V Block[®] with a half square triangle and watch the curves develop. The possibilities are only limited to your imagination.

Push the use of your V Block[®] a bit further by learning how to create Sidekicks and High/low units. You will amaze your quilting friends by thinking that you made a difficult unit, when in fact the use of the V Block[®] made your life so easy.

Course: 301 Wing Clipper Sunday March 12, 2023 1 to 5:00pm

Learn the simple secrets to creating crisp, clean flying geese effectively and quickly. This method can be applied to any pattern that requires flying geese units. Since you usually have to make hundreds of these units at a time, why not make them perfect every time?

Expand the use of your Wing Clipper I[®] by learning how to make Pickets and Quickets. Once you begin to recognize these units, you will be surprised how often they appear in patterns from your favorite magazines and designers. You will want to add Pickets and Quickets to your border options.
